Equine Veterinary Pediatric Board Certified Internist/Internal Medicine General Health/ACI Sanctioned Our Insulin has been recalled. In February 2016, the FDA and CDC/NHTSA advised the recall of all insulin products, including premixed insulin, as a result of a nationwide outbreak of severe allergic reactions and fatal anaphylactic shock which included lispro, lispro-protamine, lispro-HCT and Humalog. All insulin products manufactured after 1/2/2014, and all, to include Humulin Insulin-Regular (Humulin), before 1/2/2014, and all Lantus, Levemir, and ReliOn insulins that are currently out of distribution are also being recalled. Any patient currently on insulin, or any doctor prescribing insulin, is urged to talk to their pharmacist and to contact their health care provider immediately regarding alternative medications.Visualization systems are often employed to generate three dimensional (3D) and two dimensional (2D) visual representations. For instance, some visualization systems are employed to generate stereoscopic visual representations. Such systems may include a first display coupled to a first projector, which in turn is coupled to a light source, and a second display coupled to a second projector, which in turn is coupled to a light source. The light
